

AIRFRAME™ HELMET

HLM-M01

CRYE PRECISION™

FEATURES

1. Revolutionary vented shell design for passive cooling
2. Covers more of wearer's nape than traditional designs
3. Lightweight design: MD 2.30 lbs. | LG 2.55 lbs. | XL 2.75 lbs.
4. Modular ear and face protection available
5. Modular ARC Rail™ system available
6. Includes 3/4" pads
7. Can be pre-drilled at factory for 3-hole or 4-hole NVG mounts
(configuration compatible with Ops-Core® and Wilcox® 3-hole mounts)

DESIGN

The AIRFRAME™ ballistic helmet sets standards in protection, comfort, and modularity. Complete AIRFRAME™ HELMETS weigh less than complete ACH 2002 helmets while providing more coverage area. The AIRFRAME™ was developed with a mandate to dramatically reduce headborne weight while exceeding common frag threats. A complete medium AIRFRAME™ HELMET weighs only 2.30 lbs., and the large weighs a mere 2.55 lbs. The unique overlapping shell design of the AIRFRAME™ creates an integrated vent that provides passive cooling and can reduce the damaging effects of explosive blast waves. Each AIRFRAME™ HELMET features an Ops-Core® H-Nape Head-Loc™ retention system for unmatched stability, comfort, and ease of adjustment. Up armoring the AIRFRAME™ with ballistic ear or face protection is simple and fast (see our EARS™ and CHOPS™ for more info). All helmets and components are compatible with common ear-pro systems like Peltors® and Sordins®. Made in the US from US materials.

WEIGHTS

- MD: 2.30 lbs.
- LG: 2.55 lbs.
- XL: 2.75 lbs.
